

Business Accelerator Program

Our last cohort grew profits by 68.3% and increased revenue by 42.5%. Our business is in helping your business to thrive.

How did your business meet the challenges (or opportunities) of the pandemic? How will you thrive in the new (post-pandemic) world? Will you react to challenges as they emerge or work on proactive steps to take advantage of the business opportunities arising from market and workplace changes? If you want to be a winner in the new world, we recommend you make a smart investment to get ahead of the curve. We provide a mixture of group-classroom-based learning, one-to-one sessions, and between-lesson tasks.

Our 12-month business accelerator program is built around 12 high-impact modules

1. High-level goals
2. Financials
3. Increasing Business Value
4. Customer strategies
5. Marketing strategies
6. Developing High Performing Culture
7. Systems & Processes
8. Structure for growth
9. Operational Excellence
10. Optimising Customer Excellence
11. Business Growth Mindset
12. Business Review & Future Planning
